

GREEN

HOTEL METROPOLE
MONTE-CARLO

ATTITUDE

Committed since 2007 to an environmental policy entitled
GREEN ATTITUDE

The Hotel Metropole Monte-Carlo, mindful of the impact of its activities on the planet, has chosen to become a green hotel.

Organizing an event at the Hotel Metropole Monte-Carlo
(meetings, seminars, conferences, banquets, etc.)
is the guarantee of reducing your ecological impact.

HOTEL METROPOLE
MONTE-CARLO

Your work meeting or seminar

Transfers in eco-friendly vehicles can be organized by our concierges for your visit to the Hotel Metropole Monte-Carlo.

Our establishment is equipped with a heat pump for more reasonable consumption and all our meeting rooms are fitted with a temperature regulator to optimise energy management.

Each meeting room has a depolluting plant to reoxygenate the atmosphere in these working spaces.

The water left in the bottles is poured into the hotel's gardens.

Concerned about our paper consumption, our notepads are made from FSC-certified paper from forests managed for the printing industry.

A digital paper board will be installed in your meeting room.

In order to limit our plastic consumption, all our drinks will be served in glass bottles that will be recycled.

On the tables, silicone coasters have replaced the traditional paper coasters.

Green by Metropole options for your work meetings

For your coffee breaks, a Nespresso machine can be left at your disposal.
Used capsules will be **recycled** by our teams.

Home-made detox and well-being drinks will be available
as part of our "coffee break" offer.

You will be given the opportunity to donate your decorations after your
event for recycling or reuse at a later date.

Green by Metropole options for your seminar

We offer you a range of ready-to-go activities, that respect the environment, to be enjoyed by the participants of your event:

Pastry Classes

Patrick Mesiano, our Pastry Chef, will give your group a 2-hour introduction to a "zero waste" recipe using a fruit chosen depending on the season.

Cycling outing

For the more sporty, discover our region on electric bikes. Invested in the development of increasingly responsible tourism, the Hotel Metropole Monte-Carlo encourages you to calculate the carbon footprint of your visit in the Principality in just a few minutes using a carbon calculator.

Our catering offer

Christophe Cussac, our Head Chef, establishes his menus using local and seasonal products. He will be able to meet all your special requests (vegetarian dishes, gluten-free, etc.).

The fish on offer complies with the recommendations established by the label "Mr Good Fish" which guarantees the seasonality of the fish and respect for sustainable fishing.

We do not use plastic containers for the presentation of our appetizers but glass or porcelain containers.

For events outside our hotel, our banqueting service will deliver the dishes in reusable boxes, thus avoiding single-use plastic ones.

At the Hotel Metropole Monte-Carlo,
the Green is subtly on display and
intensely experienced.
